

# **UNIVERSAL P.G. COLLEGE, MAHWA – DAUSA (RAJ)**

## **BEST PRACTICES BY COLLEGE TO UPGRADE THE RURAL EDUCATION**

### **PRACTICE – 1: FREE ACCESS OF BOOKS FOR ALL STUDENTS.**

College provides course books to all the students free of cost to encourage students to continue their education. Maximum rural area's guardians are not able to borrow the educational expenditure of their wards because they are not economically strong. Because of this maximum students drop out and discontinue the education. Universal college helps to all the students and provides course books free of cost to provide opportunity to continue the education.

### **PRACTICE – 2: BEST ACCESS TO LIBRARY AND LABS.**

College has a big and rich central library and well equipped labs to provide opportunities for firsthand experience and knowledge. They can easily access the library and borrow reference books and other usefully literature inside the college premises.

Well equipped labs provide the opportunity to the students for firsthand experience with learning by doing method.

### **PRACTICE – 3: REWARDS FOR STUDENTS AND TEACHERS.**

College has constituted the following rewards for its staff and students. The mode of reward is in terms of appreciation certificates and mementos. Following awards are given by college-

1. Best teacher award.
2. Topper student of the class.
3. Best outgoing student.
4. Best Student in all the areas.
5. Most college attending student.
6. Best student in social service.
7. Best student in sports.

8. Best student in cultural activities.

9. Best supporting student.

10. Best disciplined student.

With this rewards system college anchorage the students and staff to perform their best and it's help to create positive, competitive and healthy environment in the college premises.

#### **PRACTICE – 4: SCHOLARSHIP FOR TOPPER STUDENTS.**

College provides 100% scholarship to all toppers of all classes to continuing free education in next grade. It helps to create competitive and progressive environment in college campus.

#### **PRACTICE – 5: SOCIALIZATION OF STUDENTS WITH SOCIAL SERVICES.**

Students are the future of our country. It is the students who are going to develop our country in the near future. It is not wrong to say that our country is in the hands of the students who are studying today. When they will grow up and become professionals, they will work for the betterment of the country. So, these students should know how to interact socially, how to understand other people's problems and how to work for the social betterment of the society. It is not only the society which gets benefitted from the social work done by the students, but it is also the students who get benefitted from the Social Work. College organized many social activities with NSS volunteers in nearby rural areas like awareness programs for education, health, Save the girl child, Save the nature, Save the natural resources, Clean and green villages etc.

## **PRACTICE – 6: REFORMED TEACHING LEARNING PROCESS.**

Reformed Teaching Learning Process In education, teachers facilitate student learning which helps students gain skills knowledge and thinking ability. Different ways to teach are often referred to as pedagogy. Teaching using pedagogy involves assessing the educational levels of the students on particular skills. Understanding the pedagogy of the students in the class room involves using differentialised instruction as well as supervision to meet the needs of all students in the classroom.

(a) Student Centric Learning: As we found a few difficulties in the traditional method of chalk and talk teaching, we have set up the classroom as student centric namely Reformed Teaching Learning (RTL) process. In this RTL method, the interaction by students has improved considerably.

(b) Activity Based Learning: As this new process is connected with activity based learning such as role play, students get more space to interact with teachers and classmates. Further, PPTs, Videos and short seminars are being used in the RTL method that results in easy understanding of the concepts by students.

(c) Project Based Learning: The RTL method provides a detailed learning to students and also reduces them to initiate a project on the basis of what they have learnt in the classroom.

(d) Technical Quiz: To get in-depth knowledge in subjects, technical quiz is conducted in each subject which helps students to have specified learning.

(e) Mentoring: The teachers meet students periodically, collect the pros and cons of this method and counsel them to remove the difficulties in their academic performance; this method is called 'Mentoring system' ; students' personal issues are also discussed and a proper guidance and support is provided to ensure the comfort of students in the campus. The primary focus of the RTL method is to give students a wide-ranging knowledge, exceptional creativity and more comfort and to bring out their hidden potentials into the limelight.

## **PRACTICE – 7: COMPETITION CLASSES.**

The college regularly encourages the students to compete in external competitions (tech fests, paper presentations and idea and innovation contests) by conducting competition classes regularly after daily academic schedule. It's result that every year our students get selected in many central and state level government and private jobs like teaching, railways, Army, Police, Post Office etc.
